Self-employed

12/2017 - present

I currently work as a freelance software engineer. My specialization is web application development with focus on small businesses. One of my clients is <https://festada.cz/>, which is a software solution for sheep and goat herd management. I also co-operate with <https://aurora.io/> and I have delivered applications such as the Leondrino Pay app <https://cms.leondrino.com/leondrino/> or <https://clearrooms.com/> for Elder Studios Ltd in the past.

Kentico Software

12/2017 - 2/2020

2/2019 - 2/2020

Member of the content production team focused on improving in-app copywriting experience and jobs related to it. Making impact by participating on customer research to be able to enhance the client application written in **React and TypeScript**. Attended some calls with customers and took part in customer visits in an english speaking country.

12/2017 - 1/2019

Part of the operations team that handled primarily the billing and subscription functionality of Kentico Cloud software architecture. Implementing both front-end client and Microsoft Azure based back-end applications in modern **JavaScript (React.js/Redux and Typescript)** and the **.NET stack (ASP.NET MVC, MSSQL, C# 7)**. Also worked with **Azure** services, implemented WebJobs and noSQL document databases.

inSociety s.r.o.

INSOCIETY 5/2017 - 11/2020

Implementing custom e-commerce solutions based on PrestaShop platform in **PHP**. Apart from that I've also managed to deliver a full **React/Redux** based application, utilizing the latest technologies available at the time - modern **JavaScript** specification (**ECMAScript2015**), **webpack** etc.

PS Works s.r.o.

2/2017 - 5/2020

Started off in a small agency focused primarily on delivering custom websites and e-commerce solutions to local businesses. In addition to website coding skills such as creating web templates and simple scripts in **HTML, CSS and JavaScript**, I've also picked up some marketing and customer success basics along the way, which helped me to clearly understand client intentions within a specific project.
